Supported Employment (SE): Service Overview (cont.)

Job Coaching is included within Supported Employment and will **not** require a separate DVR MSP New Participant Referral Form (NPRF).

SE Services contain the following components: Job Placement, Job Maintenance, and Transition – Vendor Representative to Long-Term Supports.

Job Placement (section 2.2.4):

- Finding a job placement that matches the Area of Interest/Vocational Goal(s) identified in the Intake Plan, which is individualized to the VR Participant's work preferences and strengths and ensures a good employer/employee match.
- Building and utilizing community networks and natural supports as necessary throughout the process for information and support (e.g. family, friends, previous coworkers, or other community agencies) based on the VR Participant's individual choice.

- Maintaining stable employment in the same job for a period of not less than ninety (90) days after job placement.
- Customizing job duties or job carving for the VR Participant to have success in their employment.

JC is provided to a VR Participant who has been placed in competitive employment in an integrated work environment which requires temporary support in order to maintain and/or stabilize the placement and enhance job retention.

JC is available for Students with Disabilities (SWD) who are receiving Pre-Employment Transitions Services (Pre-ETS) Work Based Learning Experience (WBLE).

* Job Coaching, as a “stand alone” service, is only for individuals that are not Supported Employment Participants, given Supported Employment services now incorporates Job Coaching services *

Trial Work Experience (TWE): Service Overview

TWE is an exploration of a VR Client's ability, capability and capacity to perform work duties in realistic, integrated work setting(s) for the purposes of eligibility decision and is used for those VR Clients who require further assessment to determine eligibility for VR services.

Trial Work Experience consists of TWE services, in the most competitive and integrated setting, which consist of short-term unpaid or paid trial work experiences which are designed to measure a VR Client's eligibility for VR services, short term should be for a period not to exceed 90 hours in a single work setting, and includes supported employment, on-the-job training, and other experiences using realistic work settings.

Vocational and Work Adjustment Training Services - Adult Overview

VWATS - Adult are for individuals who have a wide range of significant disabilities and are referred to by DVR. Services are to be individualized, consistent with the VR Participant's strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. VWATS provides classroom, facility, and/or community training to increase a VR Participant's interpersonal skills relating to basic traits and attitudes.

In the most integrated setting, VWATS consists of teaching the core work readiness/employability skills necessary for obtaining and maintaining employment as well as successful work behaviors and performance.

Job Readiness Training (JRT) is an educational approach or instructional methodology that uses the workplace, or real work, to provide VR Participants with the knowledge and skills that will help them connect classroom experience to real-life work activities and future career opportunities. These opportunities are meant to engage, motivate, and augment the learning process.

- Job Readiness Training can be done in conjunction with private, for-profit, or nonprofit businesses in the community.
- Job Readiness Training requires in-depth engagement of the VR Participant, an evaluation of acquired work relevant skills, and must be in an integrated work setting and may include multiple activities.
